INDEX TO VOLUME 19

Aizley, P., Simplicity for a class of convolution algebras..... 95
Bandelt, H. J., Regularity and complete distributivity.....123
Barja, J. M., and F.E. G-Rodeja, Morita Equivalence of Monoids....101
Bulman-Fleming, S., and K. McDowell, Flatness in varieties of normal bands.....139
Bulman-Fleming, S., and K. McDowell, Flatness and projectivity in commutative regular semigroups.....247
Berglund, J. F., Problems about semitopological semigroups.....373
Capocelli, R. M., On optimal factorization of free semigroups into free subsemigroups.....199
Cherubini Spoletini, A., and A. Varisco, Quasi commutative semigroups and σ-reflective semigroups.....313
Chu, D.C., and H. J. Shyr, Monoids of languages admitting ring structures.....127
Edwards, C. C., F-regular and F-orthodox semigroups.....331
G-Rodeja, F. E., see Barja, J. M.
Hoo, C. S., and K. P. Shum, Prime radical theorem on ordered semigroups..... 87
Kehayopulu, N., On intra-regular Ve-semigroups.....111
Kim, K. H., and F. W. Roush, The average rank of a product of transformations..... 79
Knauer, U., and A. Mikhalev, Endomorphism monoids of free acts and O-wreath products of monoids, I. Annihilator properties.....177
Knauer, U., and A. Mikhalev, Endomorphism monoids of free acts and O-wreath products of monoids, II. Regularity.....189
Knauer, U., and A. Mikhalev, Endomorphism monoids of free acts and O-wreath products of monoids III.....355
Kobayashi, Y., The exponent semigroup of a semigroup satisfying $(XY)^3 = X^3 Y^3$.....323
Kwan, S. Y., and K. P. Shum, Lattices of order ideals on ordered semigroups.....151
Lea, J. W., Continuous modular lattices of breadth two.....387
Lord, J. M., A projective limit characterization of CIF semigroups with an N-congruence.....267
McDowell, K., see Bulman-Fleming, S.
McDowell, K., see Bulman - Fleming, S.
McDowell, K., see Bulman-Fleming, S.
Mikhalev, A., see Knauer, U.
Mikhalev, A., see Knauer, U.
Mikhalev, A., see Knauer, U.
Milnes, P., and J. S. Pym, Function spaces on semitopological semigroups.....347

Mogilevskii, M. G., Order relations on symmetric semigroups of transformations and on their homomorphic images.....283
Osondu, K. E., Homomorphisms of semilattices of semigroups.....133
Pondělíček, B., The intersection graph on an ordered commutative semigroup.....213
Pym, J. S., see Milnes, P.
Roush, F. W., see Kim, K. H.
Ruppert, W., The structure of semitopological monoids defined on compact connected 3-manifolds.....219
Satyanarayana, M., On 0-simple semigroups admitting ring structure.....307
Shum, K. P., see Hoo, C. S.
Shum, K. P., see Kwan, S. Y.
Shyr, H. J., see Chu, D. C.
Stewart, P. N., Quasi-ideals in rings and semigroups, by O. Steinfeld.....371
Straubing, H., On finite J-trivial monoids.....107
Swamy, U., Baer-Stone semigroups.....385
Varisco, A., and A. Cherubini Spolentini, see Cherubini Spolentini
Weinert, H. J., S-sets and semigroups of quotients..... 1
Yuan, J., A note on angular semigroups.....261
